

Equity in Athletics Disclosure Act (EADA)

Equity in Athletics Disclosure Act (EADA) of 1994
Section 485(e) and (g) of the Higher Education Act of 1965
20 U.S.C. 1092
34 CFR 668.47

EADA on the Web

Schools report their EADA data on the Web at the Athletic Disclosure Web site:

<http://surveys.ope.ed.gov/athletics>

Note that a password and user ID are required for use of this Web site. They are sent by the Department to the chief administrator at the school. For help with this site, contact: eadahelp@westat.com

Prospective students, their families, and the public can view the EADA reports for participating schools on the Web at:

<http://ope.ed.gov/athletics/>

USED's responsibilities

The Department has to ensure that the individual school reports are made available to the public within a reasonable period of time.

EQUITY IN ATHLETICS (PARTICIPATION RATES & SUPPORT FOR ATHLETIC PROGRAMS)

The Equity in Athletics Disclosure Act (EADA) is intended to make prospective students aware of a school's commitment to providing equitable athletic opportunities for its men and women students.

Any coeducational institution of higher education that participates in an FSA program and has an intercollegiate athletic program must prepare an annual EADA report. The report contains participation rates, financial support, and other information on men's and women's intercollegiate athletic programs. Officially, it is *The Report on Athletic Program Participation Rates and Financial Support Data*. It is commonly referred to as the EADA Report.

Disclosure of the report

The EADA requires schools to publish this report by October 15 and make it available upon request to students, prospective students, and the public in easily accessible places. For example, a school may make copies of the report physically available in intercollegiate athletic offices, admissions offices, or libraries, or by providing a copy to every student in his or her electronic mailbox.

The EADA Report must be summarized, and its availability described in the **one-on-one disclosure** to all students and prospective students required of the school.

A school must provide the report promptly to anyone who requests the information. For example, a school may not refuse to provide a copy of the report to the news media, and the school may not require an individual requesting the information to come to the school to view the report. A school may not charge a fee for the information.

Schools must submit their Equity in Athletics reports to the Department via the Athletic Disclosure Web site annually within 15 days of making them available to students, prospective students, and the public.

Contents of the Equity in Athletics/EADA Report

A school must first designate its reporting year. A reporting year may be any consecutive 12-month period of time. For its designated reporting year, a school must report:

1. the number of male and female full-time undergraduate students that attended the school (undergraduate students are those who are consistently designated as such by the school);
2. the total amount of money spent on athletically related student aid (including the value of waivers of educational expenses aggregately) for: (a) men's teams and (b) women's teams;
3. the ratio of athletically related student aid awarded to male athletes to athletically related student aid awarded to female athletes (see the definition of athletically related student aid under Definitions);
4. the expenses incurred by the school for—
 - all sports,
 - football,
 - men's basketball,
 - women's basketball,
 - all other men's sports except football and basketball, and
 - all other women's sports except basketball

Expenses not attributable to a particular sport, such as general and administrative overhead, must be included only in the total expenses for all sports.

A school also may report those expenses on a per capita basis for each team and may report combined expenditures attributable to closely related teams, such as track and field or swimming and diving. Those combinations must be reported separately for men's and women's teams.

5. total recruiting expenses aggregately for (a) all men's teams and (b) all women's teams—
6. total annual revenues for— (a) all sports combined, (b) all men's teams, (c) all women's teams, (d) football, (e) men's basketball, (f) women's basketball, (g) all men's sports other than football and basketball, and (h) all women's sports other than basketball;
7. in its total revenues and men's or women's combined revenues, as applicable – revenues not attributable to a particular sport such as untargeted alumni contributions to athletics, investment income, and student activities fees;

8. individually by team or by average—
 - a. the annual school salary of non-volunteer head coaches for all offered sports of (1) men's teams and (2) women's teams—this must include the number of persons and full-time equivalent positions used to calculate each average;
 - b. the annual school salary of non-volunteer assistant coaches for all offered sports of (1) men's teams and (2) women's teams. This must include the number of persons and full-time equivalent positions used to calculate each average;

If a coach had responsibility for more than one team and a school does not allocate that coach's salary by team, the school must divide the salary by the number of teams for which the coach had responsibility and allocate the salary among the teams on a basis consistent with the coach's responsibilities for the different teams.

9. a listing of the varsity teams that competed in intercollegiate athletic competition and for each team, the following data—
 - a. total number of participants as of the day of the first scheduled contest of the reporting year for the team, number of those who participated on more than one varsity team, and number of other varsity teams on which they participated;
 - b. total operating expenses (expenditures on lodging and meals, transportation, officials, uniforms, and equipment) attributable to the team;
 - c. whether the head coach was male or female, was assigned to the team on a full-time or part-time basis, and, if assigned on a part-time basis, whether the head coach was a full-time or part-time employee of the school (The school must consider graduate assistants and volunteers who served as head coaches to be head coaches for the purposes of this report.);
 - d. the number of assistant coaches who were male and the number of assistant coaches who were female, and, within each category, the number who were assigned to the team on a full-time or part-time basis, and, of those assigned on a part-time basis, the number who were full-time and part-time employees of the school (The school must consider graduate assistants and volunteers who served as head coaches to be head coaches for the purposes of this report.); and
 - e. an unduplicated head count of the individuals who were listed as participants on at least one varsity team, by gender.
